Summary

Computer Systems Technician pursuing education at St. Lawrence College. Has relevant experience in the field of Networking across routing, VLANS, and ACLs. Hands-on experience with deploying, managing, and configuring both Windows and Linux instances. Seeking a role as a Network Administrator.

Technical Skills

Networking – LAN, WAN, ROAS, DNS, DHCP, VLANs, ACLS, Routing protocols - OSPF, EIGRP & Static Routing
System Administration - Rocky Linux, Windows 10 & 12, Active Directory, SSH Hardening
Cloud Computing - Server Management & Deployment,
Software – Microsoft Office, Outlook, Cisco Packet Tracer, MemTest86
Computer Hardware - Computer Hardware Installation

Experience

Jun 2023 – Jun 2025

Arabic Tutor | Islamic Society of Kingston

- Organized and taught the fundamentals of Arabic reading literacy.

Education

Diploma expected in April 2027

Computer Systems Technician – St. Lawrence College
Related courses: Networking, Computer Hardware & Systems, Cloud Computing, Linux 1 & 2, Windows 1 & 2

Projects

April 2026

Network Topologies | St. Lawrence College

- Configured a LAN with multiple logically segmented VLANs for traffic control using ROAS. Configured both EIGRP (Cisco only), and OSPF protocols on the LAN. Connected an office LAN with static routing to the WAN. Implemented measures with ACLs to permit only web traffic from LAN to WAN.

May 2026

Laptop Maintenance & Diagnosis | St. Lawrence College

- Disassembled the laptop's hardware and rebuilt it back. Used MemTest 86 software to perform a diagnostics check on the computer's RAM.

October 2026

Virtual Machine Deployment

- Provisioned a miniature Windows Active Directory through a hyper-visor. Managed multiple virtual machine servers along with standalone stations for both Windows and Linux. Used SSH hardening techniques such as changing the default port.
